Trump's war in Iran has delivered disaster for humanity and the climate. Thousands have been killed and millions displaced. Food and gas prices are soaring as the economic crisis deepens. After suffering a serious blow when the 1/23 Minneapolis general strike pushed back ICE's violent Operation "Metro Surge", US imperialism has been severely weakened, and Trump's approval rating is lower than ever.

How are Trump's attacks on immigrants at home and his warmongering abroad connected? What will it take to fight back? How can we build a mass working-class movement to finish Trumpism for good?

Join Socialist Alternative for a discussion on how to fight back against ICE and the imperialist war machine, build a new working-class party, and get rid of the whole rotten capitalist system—and replace it with socialism!
